TUESDAY.....NOVEMBER 8, 1892.

Give One Day to Your Country. Give this day to your country. The battle for constitutional liberty is to be fought to-day here and everywhere else in the United States.

Let nothing keep you from voting. It is a duty which you cannot perform the office). Give this day, then, to your

Vote for CLEVELAND and STEVENSON, and for your congressional nominee. Do not follows: forget to vote for a congressman. The Democrats hope to have a large majority in the next House of Representatives.

Be sure, therefore, that your vote is didate for the House of Representatives.

Why Vote?

Because the country needs tariff reform, and can secure it only by electing GROVER CLEVELAND President of the United States. Because the Republican party is en-

deavoring to rum the fair fabric of government which was left to us by our fathers. There is to measure to which they will hesitate to resort in order to accomplish their purpose of perpetuating their rule by fair means or foul.

Because the bayonet must be kept away from the ballot-box. There is no doubt whatever, we think, that if the Republicans secure the presidency and both houses of the next Congress, they will enact the Longe force bill into a law. In other words, all future national elections will, as soon as the Republicans can so arrange the matter, be conducted under the shadow of the bayonet. There will be no more free elections. Because the Republican party is a sec-

tional party-a party of malignants-and such a party ought not to be trusted with the control of the National Government. That party has outlived its day. It has kept the country in trouble ever since it succeeded in getting possession of the government. There has hardly been a day between 1865 and 1892 when there was not a majority of the white voters of this your duty as a freeman. You are one of country opposed to it.

of the Republican party.

Because the people have the right to be governed by the best party and the best men in the land. These best men are Democrats. This best party is the Demoeratic party. It knows no sections. It is supported by legions of white men in every State of the Union, whereas the Republican party has few white supporters in the sixteen States called "the solid South." Because, finally, there are numerous rea-

sons why you should vote the Democratic ticket, and none why you should neglect to do so. The Republican party deserves nothing at your bands or the hands of any other patriot except consignment to the tomb of dead parties which have lived till the people detested them.

A Great Struggle-

This morfing's issue of the DISPATCH will find its way to many of our thousands of readers before the closing struggle will have begun. From sunrise to sunset we expect the battle of ballots to go on. Yet we cannot but fear that the battle of bailots may in some places turn out to be a contest between threatening bayonets and peaceful ballots. The presence at the polls of Federal supervisors and deputy marshals is undoubtedly intended as a measure of intimidation. These officials are placed near the ballot-box, and placed there to represent the bayonet. Each supervisor feels that a gleaming bayonet stands just outside the door of the voting-place. The Lopes bill, if Lopes himself is not mistaken, calls for a soldier behind each voter and a bayonet in the hands of each soldier. This soldier and this bayonet will be seen to-day in New York, in Richmond, in Philadelphia, in Brooklyn, and, so far as the South is concerned, wherever the remnant of carpet-baggers and scalawags may call upon the Republican partisan Federal judges to take charge of the poils.

Nevertheless, the people will triumph to-day. It is to-day that "the beginnings" must be withstood. The steps leading towards despotism are as yet short ones, so to speak. The criminals are not yet prepared to introduce the new order of things of which we speak. But if to-day's election were to result-as it will not-in the success of the party which now keeps but a few bayonets in sight of the election-precincts, and the people were to acquiesce in that result, there would never be another presidential election not controlled by the strong arm of the military. Let us avail ourselves of the last opportunity that will be afforded us to preserve the free institutions handed down to us by the fathers of the republic.

The Great Sham.

Without any protest at all from the Third-party people, so far as we have heard, widespread circulation in Virginia has been given to a ticket which has all the semblance of a "People's party" ticket, but is in fact and without doubt a Republican ticket. Whoever casts such a ballot votes not for Weaven and Figure-though their names head the ticket-but for Hanmison and Rain.

The astonishing thing is that while it is denied that there is any coalition between the Republicans and Coalitionists the Third-party people allow this bogus ticket to be circulated without denouncing the authors and perpetrators of the swindle; a swindle intended to cheat wellmeaning but unobservant countrymen into voting for the force-bill candidates. This great sham ticket would have de-

ceived hundreds of people but for our expose of it. It may yet fool some unwary persons. So beware.

Every man who can read should read his own ticket through and not be trapped. The path of safety is in the regular Democratic ticket-the ticket of CLEVELAND, STEVENSON, and GLORGE D. WINE.

If your neighbor fails to vote early in the day call upon him and remind him that he must not neglect that important duty.

It is well to give the Democratic nomi-nees "a good send-off." Therefore we say to the Democrats of Richmond and to all

other Democrats who may receive the Disparce early this morning, that they ought to vote early. Strengthen the Democratic host. Roll in the votes as soon as possible for CLEVELAND, STEVENSON, and your congressional nominee.

The Election Returns In Virginia the vote to-day for President should be compared with the presidential vote of 1888, and those sending in returns should give the vote for CLEVELAND, HAR-SON, WEAVER, and BIDWELL; that is to say, for each of the four presidential ickets. Whether WEAVER gets one or one hundred votes in your county return them for Weaves. Don't classify them as "seattering." So, too, as to votes for the Prohibitionist candidate, Bidwell. Send the vote, also, for each candidate

for Congress. Whether your county has good or bad news to report, report it promptly. Precinct returns are of no use at all unless accompanied with a statement showing whether the vote forwarded indicates a gain or loss to the Democrats in the county in question. Where county votes are returned the Disparch can make this comparison for itself should correspondcomparison for itself should correspondcontagnities of the county votes are returned to be a present fail to do so, but a present sent of the county with the county fail to do so, but a present sent of the county fail to do so, but a present of the county fail to do so, but a present sent of the county fail to do so, but a present of the county fail to do so, but a present of the county fail to do so, but a present of the county of the county fail to do so, but a present of the county fail to do so, but a present of the county of the c

The Democratic leaders, therefore, should send messages warning their fellow Democrats to look out for the counterfeit. Had this ruse gone undiscovered until to-day Mr. Grant might have profited by it considerably, but now it is likely to do

him more harm than good. We cannot say whether such counterfeit tickets have been sent to other congressional districts or not, but it is quite probable. So all Democratic voters should be put on their guard.

The Victorious Column. [New York Times.]

The Republicans have no more chance of carrying New York than of carrying Texas. The Democrats are as sure to carry Indiana as the Republicans are to carry Massachusetts or Maine. New Jersey's Democracy is unalterable. The South will give Mr. Cleveland every one of its 159 votes; for West Virgina is no longer doubtful. Six of Michigan's electors will be chosen by the Democrats. The column that the Republicans cannot break in upon, the Cleveland column, the victorious column, stands in this way:

The Southern States..... Connecticut is going to Cleveland also, but our and \$5.50 Suits at \$3.50 hundreds of pa-

cruing that State, and as it is not necessar e Cleveland majority in the electoral e-223 is a majority of the 444 electors lego-33. Is a majority of the 424 electors—we can leave it out of the Dem-cratic column. Nor do we need to take account of Wesver's 27 votes, picked up in Colorado, Idaho, Minnesota, Nebrasza, Nevada, and South Dakota. The 12 votes of Wisconsin, it now appears, will be given to Mr. Cleveland, but they also are a negligible quantity, since he has a sure majority without them.

[Correspondence of the Richmond Dispatch.] Norrolk, Va., November 7.—The investigating board of Paymaster Allen at the navy-yard will adjourn to-morrow. It is said that the charges against Naval-Constructor Bowles are unproven and without adequate foundation. The whole affair started in an attempt to break down the civil-service rule at this yard and restore the old Republican regime. Justice Cutchin, of the county, had be-fore him to-day a crowd of colored Corri-gan men, who tried to break up a Dezen-dorf meeting on Saturday night, and fined them for disorderly conduct.
